What is the Difference Between 14 and 18 Aida Cloth? | eHow

The thread count determines the size of the stitches and therefore, the size of the design as well. According to the Cross Stitch Centre, "the finer the fabric used, the smaller the stitches become." For a smaller design, use 18 Aida; for a bigger design, use 14 Aida. The advantage that 18 Aida has over 14 Aids is that it makes the completed stitching look more fine and detailed. The holes are closer together on the higher fabric thread count, which is 18 Aida.
