## **Safety Regulations | Cycling UK**

These regulations apply only to those who sell new bikes, bike shops in other words, and are not something that

cyclists usually need to know about. But if you think you have been sold an unsafe bicycle, it might be worth checking whether the retailer seems to have contravened one of the requirements of PBSR. General Safety When first enacted, in 1983, the major requirement of

## **Safety bicycle**

A safety bicycle (or simply a safety) is a type of bicycle that became very popular beginning in the late 1880s as an alternative to the penny-farthing ("ordinary") and is now the most common type of bicycle. Early bicycles of this style were known as safety bicycles because they were noted for, and marketed as, being safer than the high wheelers they were replacing.
